

AMENDMENTS TO THE CLAIMS

Kindly amend the claims as follows:

1. (Cancelled)

2. (Currently amended) A method for provisioning a mobile device with a mobile application, the method comprising the steps of:

deploying said mobile application as a web service accessible via a Universal Description, Discovery and Integration (UDDI) directory; and

invoking a mobile provisioning web service responsive to a request for said mobile application web service made using said UDDI directory, thereby causing said mobile application to be downloaded to said mobile device, ~~The method of claim 1~~ wherein said step of deploying comprises the steps of:

extending a web services Description Language (WSDL) template to define said mobile application, wherein said extending provides for wrapping said mobile application as said web service; and

publishing said WSDL defined mobile application in said UDDI directory.

3. – 8. (Cancelled)

9. (Currently Amended) A computer product readable by a machine, tangibly embodying a program of instructions executable by the machine to perform method steps, said product comprising:

a first code segment operative to deploy a mobile application as a web service ~~in~~ accessible via a UDDI directory; and

a second code segment operative to invoke a mobile provisioning web service responsive to a request for said mobile application web service made using said UDDI directory, thereby causing said mobile application to be downloaded to said mobile device, ~~The computer product of claim 8,~~ further comprising:

a third code segment operative to extend a WSDL template to define said mobile application, wherein said extending provides for wrapping said mobile application as said web service; and

a fourth code segment operative to publish said WSDL defined mobile application in said UDDI directory.

10. -13 (Cancelled)
